**Subject:** VMRC Letter Correction Text

Mr. Owen,

Thank you for your prompt review and feedback regarding the Atlantic Coast Pipeline submittal of a Tidal Wetlands Determination Letter to the Virginia Marine Resources Commission on September 6, 2016. Based on a call with project staff today (9/7/2016) I understand that the language regarding the tidal range determination on Page 1 of 3, paragraph two, in the third sentence should be corrected to read, "Based on the calculations, the upper end of the tidal range was determined to be 4.29 feet above the mean low water elevation". The calculations were based on data from Money Point on the South Branch of the Elizabeth River. The change is acknowledged, and you may utilize this email as confirmation of the update to this text.

Thank you for bringing this to our attention and for your thorough review.

Regards,

**Spencer Trichell**
